

Donating your boat will make a difference!

GIVE A BOAT - BUY A BOAT!

Are you spending less time on the water or have you reached a point in your boating life where you are ready for a change? Are thinking about selling your boat? Please consider Dillon Yacht Club's Boat Donation Program to help support our Junior Sailing. We sell donated boats to raise funds for the junior sailors of Colorado and to benefit the programs within.

Our program is a practical way to eliminate annual expenses and decrease your taxes while supporting higher education in the sailing community.

Annual costs of owning and maintaining a 30-foot fiberglass sailboat can run in the neighborhood of \$3,500 to \$4,500, depending on the boat's age and condition and your individual circumstances.

To get your money's worth, you need to be on the water a minimum of 35 to 40 days during the season. Anything more is money in the proverbial bank! Anything less deserves a hard look.

We make every effort to use your vessel in one of our educational programs. Short of that, we will sell the boat and deploy the net proceeds for further development of sailing in Colorado. Making this gift could have a **favorable impact on your year-end tax return**, since your gift is tax-deductible as the DYC Jr. Program is a 501 (c) 3 non profit organization.
